HIGH SCHOOL

ALPHA

*Academic Enrichment
Programme*

Prepare for success in 2021!

WELCOME TO Henderson High School

Our vision is to foster a progressive learning environment that helps all our students graduate as mature confident young people who have the know-how and drive to achieve success in their chosen fields.

Henderson High School's **Alpha Academic Enrichment Programme** adds depth and breadth to academic performance.

It allows students to collaborate with schools and academic institutes outside of the classroom environment in order to enrich their learning experience.

The **Alpha** Programme develops students' thinking skills and extends their knowledge of their chosen courses of study.

The programme facilitates research and information gathering using a variety of methods.

As well as the enrichment offered through our core curriculum, **Alpha** students are further extended with our STEM programme.

The **Alpha Academic Enrichment Programme** supports fast paced, advanced learning which is a distinct advantage of our educational approach.

Our **Alpha** students are high achievers across the curriculum and in their chosen fields.

We use the latest technologies to help develop 21st century skills – creativity, collaboration, communication, research and critical thinking.

ALPHA

TESTING FOR 2021 ENTRY

Be sure to sit our Alpha entrance exam to be eligible for the Alpha Class and Academic Scholarship.

Testing for the 2021 Alpha Academic Enrichment Programme will be carried out at Henderson High School on 4 & 11 August.
