Prepare for success in 2024!

WELCOME TO Henderson High School

Our vision is to empower students with the knowledge to succeed and change their world for the better.

Henderson High School's **Te Hiringa Academic Enrichment Programme** adds depth, pace and breadth to academic programmes.

It allows students to collaborate with schools and academic institutes outside of the classroom environment, in order to enrich their learning experience.

The **Te Hiringa** Programme develops students' thinking skills and extends their knowledge of their chosen courses of study.

The programme facilitates research and information gathering using a variety of methods.

As well as the enrichment offered through our core curriculum, **Te Hiringa** students are further extended with our STEAM programme.

The **Te Hiringa Academic Enrichment Programme** supports fast paced, advanced learning which is a distinct advantage of our educational approach.

Our **Te Hiringa** students are high achievers across the curriculum and in their chosen fields.

We support creativity, collaboration, communication, research and critical thinking.
